Why Solar?

Puntland has one of the world's greatest solar resources, but also some of the highest electricity prices.

Solar energy technology is now a reliable and affordable option for providing power and hot water.

Businesses investing in solar energy can expect the following:

- Reduction in electricity and diesel expenses
- High quality power with very little maintenance required
- Ability to add capacity incrementally over time
- Reduce noise, emissions & maintenance of diesel gensets

Products & Services

We provide and install high quality solar and electrical equipment from leading manufacturers. Our solutions are tailored to meet your needs and your budget.

Solar PV Systems

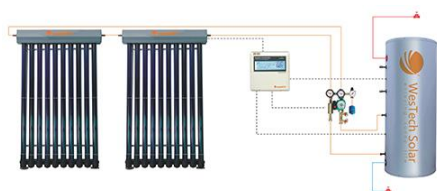

Off-grid and grid-tied systems for offsetting diesel power or full mini-grid solutions.
